Industrial Workplace Improvement for Safety & Health (I-WISH)

8 – 10 September 2025, Sayaji Hotel, Indore

ABOUT THE COURSE

Safety and health of workers employed in industries has always been on top of the agenda of the Government. The main goal of safety and health programme is to prevent workplace injuries, illnesses, and deaths, as well as the suffering and financial hardship these events can cause for workers, their families, and employers. The recommended practices use a proactive approach to managing workplace safety and health. These recommended practices recognize that finding and fixing hazards before they cause injury or illness is a far more effective approach. Traditional approaches are often reactive –that is, problems are addressed only after a worker is injured or becomes sick.

NSC firmly believes that safe and healthy working conditions have a positive impact on the productivity and profitability of industrial enterprises. NSC has designed this Programme for helping industry to improve Safety and Health at Workplace which will in turn help them to achieve goals, monitoring performance and evaluating outcome, so that their workplaces can progress along the path to higher levels of safety and health achievement

LEARNING OUTCOME

On completion of this programme, the participants will be able to identify the safety hazards & non compliances at workplace, recommend the corrective actions and understand the requirements for enhancing the Safety Culture at the workplace

NSCI Certified Internal Auditor Course for SHE Statutory Compliance

6-8 October 2025, Hotel Greenpark, Visakhapatnam

ABOUT THE COURSE

Safety and Health audit is a management tool for systematic evaluation of how well the operation and maintenance procedures match with design intent and statutes. There are already large tome of Health and Safety legislation continues to grow with the introduction of additional regulations and guidelines. Moreover, Governments also use a larger stick to punish non-compliance. Not only bigger fines are imposed on companies but their directors and senior management face imprisonment for neglect of duties.

Also, the adverse public relations resulting from poor regulatory compliance can result in lost consumer goodwill, and it can have a negative impact on valuable brand names. Statutory Compliance Audits can be used as a useful tool in reviewing an organisation's health and safety procedures and legal compliance. Findings from the compliance audit identify gaps in an organisation's current policy and procedure to enhance its safety performance. NSC has designed this 3-day training course as a regulatory audit provides an objective review of facility operations and company practices and provides a recommended process to ensure that compliance continues.

LEARNING OUTCOME

After completion of this course the participants will be get acquired with knowledge of SHE legal requirement, management system requirement, chemical, mechanical, fire, occupational health, industrial hygiene and electrical hazards.

This course enables participants to -

The Role of Trade Unions & Associations in Cultivating HSE Practices

13-15 October 2025, Hotel Taj Vivanta, Panaji, Goa

ABOUT THE COURSE

Occupational hazards and unsafe work environment pose the risk of injuries and ill health to workers. The injury adversely affects the morale of the workers which in turn would affect their productivity and safety.

The Trade Unions, Safety Committees and associations can make extensive contributions in promoting safety and health through their commitment, involvement and constructive approach. The participation of Trade Unions and associations in the process of safety and health in the Safety Committees makes the work environment safe. Recognizing the importance and role of Trade Union and associations in Occupational Safety and Health, a statutory provision for setting up safety committees was incorporated in The Factories Act, 1948. However, it has been found that the participation of Trade Union Representatives in the Safety Committees is not effective. As such, they should be actively involved in the efforts of the organization to influence workers to adopt safe work practices/habits. These 3 days program has been designed to create awareness on SHE among Trade Unions, Safety Committee members and associations.

LEARNING OUTCOME

- Participants will be able to understand their problems relating to occupational safety and health at their workplace.
- Participants will be able to clearly describe their roles and responsibilities in effectively guiding the workers for the promotion of safety and health at the workplace.

COVERAGE

- Worker's Participation in Safety Management – Structure,
- Role and Functioning of Safety Committee
- Role of Trade Union in Promoting Safety and Health at Workplace
