

MODE OF PAYMENT

Nominations accompanied by a crossed Cheque /Demand Draft drawn in favour of “National Safety Council” payable at Navi Mumbai/Mumbai in the prescribed form should be sent to the National Safety Council, Plot No.98A, Institutional Area, Sector 15, CBD Belapur, Navi Mumbai – 400 614.

NSC will also accept payment by electronic transfer. The bank details NEFT/RTGS payment are:-

Name of the Bank	Bank of India
Address of the Bank	Plot No. 11, Sector - 11,CBD Belapur, Navi Mumbai - 400 614
Bank Account Number	011620100005233
Bank Branch MICR Code	400013106
Bank Branch IFSC Code	BKID0000116
NSC's Income Tax PAN	AAATN3069N
NSC's GST Number	27AAATN3069N1Z4
HSN/ SAC Code	999293
Service Category	Commercial Training or Coaching

UPI Payment
The details of electronic transfer (transaction ID, date and amount) should be intimated to NSC by email/letter for confirmation of nomination.

ADMISSION CRITERIA AND PROCEDURE

- The admission to the programme will be on “**First-Come-First-Served**” basis for the eligible candidate (Limited Seat).
- Online registration facility will also be available on NSC website <https://nsc.org.in>
- Learners will not be permitted to attend the programme, if the **payment** is not sent before the programme.
- In case of any problem with online registration, payment can be made by a crossed Cheque /Demand Draft drawn in favour of “**National Safety Council, Mumbai**”.
- Complete name and address of the organizations should be indicated on email.
- For membership fees, active membership number should be mentioned in their communication/ correspondence. (If active membership number is not written in the enrolment form or any correspondence regarding nomination, the company will be treated as non-member.)
- Sponsoring organisation must mention **GST Number** in all communication for raising tax invoice, if not received then tax invoice will be raised without GST number and invoice cannot be changed.
- TDS may be deducted from basic amount of fees. **TDS certificate** should be issued within one month after deduction of TDS.
- If your organization is located under **SEZ Area and exempted from GST**, kindly provide the SEZ Registration Certificate. If not, GST will be applicable.
- Certificate** will be issued to each participant at the end of the programme only after **receiving** the full payment.

NSCI Certified Scaffold Supervisor 10 – 12 August 2026, National Safety Council, Hq., Navi Mumbai

ABOUT THE COURSE

Scaffold is a temporary structure used to support people and material in the construction or repair of buildings and other large structures. Work on scaffolds and at heights makes for a large number of accidents as revealed by accident analysis. Improper designs and bad maintenance of work platform for scaffolds, non-use of proper fall protection devices and misuse or abuse of ladders are the causes of accidents.

The OSHWC Code 2020, Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996 and The Central Rules, 1998, made there under stipulate specific requirements for design, inspection and maintenance of scaffolds and provide for appointment of responsible person to ensure safety of scaffolds.

Scaffolding Supervisor is responsible for ensuring that all the scaffolding in Construction project and operational plants are in accordance with the prevailing standards, procedures and laws. Scaffolding Supervisor should monitor the design and certification of all scaffolding structures on site according to all relevant specifications and standards.

National Safety Council has designed these 3 days training programme on “NSCI Certified Scaffold Supervisor” as a part of NSC’s initiatives to promote Safety in Construction Industry. The programme gives a wider perspective of the design of scaffolds along with maintenance, supervision, inspection, record keeping and measures for prevention of falling from heights.

LEARNING OUTCOME

To enable participants to design, install, maintain and supervise scaffolds for facilitating safe working at height.

COVERAGE

- Safety While Working at Heights – An Overview
- Provisions under the OSHWC Codde 2020, Building and Other Construction Workers (Regulation of Employment and Conditions of Service) Act, 1996 and The Central

Rules, 1998 related to scaffolds and working at height.

- Types of Scaffolds
- Scaffold Materials
- Manual Material Handling during construction, erection & dismantling of Scaffolds
- Inspection and Maintenance of Scaffolds
- Role of Scaffolding Supervisor
- Case Studies

WHO SHALL ATTEND

Project Engineers, Site Engineers & Supervisors, Planning Managers, Safety Professionals, Safety Committee Members and Line Managers/Executives responsible for Safety in building and other construction work.

CERTIFICATE:

- Participants who successfully pass the test as per NSCI criteria will receive a Merit Certificate and others will receive a Participation Certificate. (Validity 2 years)
- Certificates will be sent to the participants addresses and will include a unique identification number based on the last four digits of the participant’s Aadhar card.
- Participants are requested to submit a soft copy of their Aadhar card during course enrolment

VENUE

National Safety Council, Hq.
Plot No.98A, Institutional Area, Sector 15, CBD Belapur,
Navi Mumbai – 400 614.

Phone: 022 - 44002800/58/62-64/66

FEES

NSC Members	Rs. 24,500/-+ Rs. 4,410/-	= Rs. 28,910/-
	(18% GST)	
Non-Members	Rs. 27,000/- + Rs. 4,860/-	= Rs. 31,860/-
	(18% GST)	

Safety Compliance: Testing and Examination of Lifting Machines & Tackles, Pressure Vessels

19 – 21 August 2026, West End Hotel, Mumbai

ABOUT THE COURSE

In factories, ports and construction sites, several operations and processes involve the use of lifting machinery, lifting tackles, chains, ropes, etc. for material handling. Pressure vessels are used in a variety of applications in both industry and the private sector. The pressure differential is dangerous, and many fatal accidents have occurred in the history of pressure vessel development and operation. Improper selection, inadequate strength, patent defects and poor operating practices, etc., are some of the known causes for failure of the lifting equipment, as well as pressure vessels which can result in fatal or serious injuries and damage to equipment, material, or other facilities.

To prevent such unwanted events, it is essential that users of these equipment’s are familiar with the various safety requirements relating to their design, construction, testing, examination, maintenance, and operation. These equipment’s are also required to be periodically examined and tested as prescribed under different statutes. Various Rules and

Regulations under different statutes for the safe use of the lifting appliances and pressure vessels have laid down guidelines for safe operation.

This 3-day course will be conducted through classroom sessions with theoretical input followed by exercises and tests. Understanding of course will be determined through interactions & feedback of participants.

LEARNING OUTCOME

This programme will enable participants to:

- Create awareness for testing and examination of lifting machines, chains, ropes and lifting tackles.
- Developing the technical competence of the competent persons and technical persons in testing and examination of lifting appliances, pressure vessels and in enhancing their awareness in the safe use.

COVERAGE

- Relevant Statutory Provisions Under the OSHWC Code 2020, State Factories Rules
- Relevant Statutory Provisions Under the Dock Workers (Safety, Health & Welfare) Regulations, 1990
- Safe Slings Practices
- Actual Testing Procedures for Wire Rope Slings, Chain Slings, and Lifting Tackles like – Shackles, Eye Bolts etc
- Inspection & Examination of Forklift & Hydra Crane
- Inspection and Maintenance of Lifting Tackles, Chain Pulley Block, Slings
- Inspection and Examination of Mobile Crane and Tower Crane
- Testing and Examination of Pressure Vessels Under SMPV Rules, 2016 and Factories Rules
- Non-Destructive Testing of Pressure Vessels and Lifting Machine

Industrial Workplace Improvement for Safety & Health (I-WISH) 9 – 11 September 2026, Hotel Vivanta, Panjim, Goa

ABOUT THE COURSE

Safety and health of workers employed in industries has always been on top of the agenda of the Government. The main goal of safety and health programme is to prevent workplace injuries, illnesses, and deaths, as well as the suffering and financial hardship these events can cause for workers, their families, and employers. The recommended practices use a proactive approach to managing workplace safety and health. These recommended practices recognize that finding and fixing hazards before they cause injury or illness is a far more effective approach. Traditional approaches are often reactive –that is, problems are addressed only after a worker is injured or becomes sick.

NSC firmly believes that safe and healthy working conditions have a positive impact on the productivity and profitability of industrial enterprises. NSC has designed this programme for helping industry to improve Safety and Health at Workplace which will in turn help them to achieve goals, monitoring performance and evaluating outcomes, so that their workplaces can progress along the path to higher levels of safety and health achievement

LEARNING OUTCOME

On completion of this programme, the participants will be able to identify the safety hazards & non compliances at workplace, recommend the corrective actions and understand the requirements for enhancing the Safety Culture at the workplace

COVERAGE

- Overview of Legal Requirements
- Hazard Identification and Risk Assessment
- Monitoring of Workplace Environment
- Mechanical Safety
- Accident Reporting, Investigation and Analysis
- Safety Culture & BBS Management
- Electrical Hazards
- Fire Prevention and Protection

WHO SHALL ATTEND

- Technical professionals from industries and reputed institutions/organizations, including Maintenance Engineers, Supervisors and Safety Professionals.
- Competent people duly authorized for inspection, testing, and examination of lifting appliances and pressure vessels.

VENUE

West End Hotel

45, New Marine Lines, Near Bombay hospital,
Mumbai- 400 020, Ph: 022- 40839121
