10th April, 2025

PERSPECTIVE

Every installation has some fire hazard and risk related to fire. The fire hazard is due to presence of flammable or combustible material, along with possibility of spark or ignition. The fire statistics reveals that nearly 8-10% of fatalities are due to fire & explosion in factories/Industries. NSC is organizing one day Checklist Audit on Fire Safety as a preventive measure against damage and this endeavor is a tribute to the firemen who lost their lives in devastating fire occurred at Bombay Dock in 1944.

As electrical hazard is one of the major causes of fire, NSC has Electrical Checklist Audit. This one day Checklist Audit on fire & electrical safety would provide a gap analysis approach for fire and electrical safety systems and means to improve the safety standard through the major recommendations. These Checklist Audits are arranged for installation at concessional rate only on occasion of Fire Service Week observed all over India.

The major areas to be covered for fire checklist audit

- Fire Safety Management System
- The Preventive Measures
- The Protective Measures
 - The first Aid Fire Fighting System
 - The Fixed Fire Fighting System
- Fire Safety for First Responder
- Fire Safety Legislation
- Fire Emergency Plan

The major areas to be covered for electrical checklist audit

- Electrical Safety Management System
- Electrical hazards and control Measures
- Personal safe guarding w.r.t. electrical work
- PPE norms and practices
- Maintenance procedures
- Electrical Safety Legislation (CEA Regulations / NBC/ applicable Indian Standards).

ORGANISATION

The Checklist Audit on Fire Safety or Electrical Safety are applicable for industries including Small and Medium Scale industries, Research Institutes, Hotels, Malls, Hospitals, warehouses, High-rise Buildings, Fire Brigade, Port/Dock, etc.

AUDITOR

Experts from National Safety Council, Industry, Government Bodies, Fire Protection Engineers and Electrical Experts.
