PERSPECTIVE

The purpose of conducting an emergency evacuation drill is to assist personnel to know their roles and responsibilities in an emergency situation in accordance with the emergency plans, procedures and to test the workforce response to an emergency.

Evacuation drills are essential to make sure your workforce is aware of the necessary steps to safely evacuate the premises.

Objective:

The main objectives of the Emergency Evacuation Drill is:

- To ensure fast, organized and smooth evacuation of employees from the workplace during emergencies.
- To train emergency team members to perform their duties effectively.
- To test the working conditions and effectiveness of all fire and emergency equipments at the workplace.
- Evaluating effectiveness of evacuation procedures and determining necessary changes to improve performance.
- The following methodology will be adopted to complete the evacuation drill successfully:
 - i. Initial briefing on drill requirement
 - ii. Mock drill
 - iii. Observations
 - iv. Debriefing meeting.

ORGANISATION

The One day evacuation drill is applicable for industries including Small and Medium Scale industries, Research Institutes, Hotels, Malls, Hospitals, Warehouses, High-rise Buildings, Port / Dock, etc.

EXPERT

Expert from National Safety Council, Industry, Government Bodies and Fire Protection Engineers.

DATES & TIME
