NSCI launches new e-learning course on
Advanced Industrial Safety

Introduction :

Safety performance improves when we continuously change our perspectives about how safety is to be managed. Minimum compliance, focus on unsafe acts and conditions, respect for rules and regulations, following standard operating procedures, learning from incidents provide the basic foundation in safety. However, in order to continuously improve our safety performance, we also need to focus on hazards and risks in our workplace, prevention and protection, planning and preparedness for and response to adverse events.

Objective of the Course:

This Advance Industrial Safety course will initiate participants not only to the concepts on those focus areas but also will provide an approach to measure safety performance.
