Plot No.98A, Institutional Area, Sector 15, CBD Belapur, Navi Mumbai – 400614

## ABOUT THE COURSE

The Oil and Gas sector handles very large volumes of highly inflammable & toxic hydrocarbons. Therefore, managing the HSE risk is one of the greatest challenges faced by oil industry. The regular and large influx of new recruits joining the Oil industry are generally the fresh Engineering or Science graduates (with minimum or Nil safety syllabus covered in their academic curriculum) makes it imperative for enhancing their competence to meet the changing industrial scenario.

Competence building in Health, Safety and Environment management (HSE) within the oil and gas industry is crucial, given the sector's inherent risks and environmental impacts. This involves developing skills, knowledge, and behaviors to ensure the health and safety of workers, minimize environmental impact, and comply with the regulations. By investing in the education of employees, organizations can mitigate risks, protect the assets, property and environment, and ensure the health and safety of their workforce. The integration of technology and stakeholder engagement further enhances these efforts, leading to a more sustainable and safer industry.

## PROGRAMME OBJECTIVES:

NSC has developed this unique programme with an objective to impart a comprehensive training to newly inducted Oil & Gas Sector executives/ young engineers, to develop understanding of HSE risks and mitigation measures and build competency.

## LEARNING OUTCOME

This program will enable participants to:

- Understand various systems and processes followed by the Oil and Gas industry to manage HSE risks and to assure maintaining high level of standards.
- Develop competencies in identifying and eliminating potential risks by understanding and maintaining barriers to prevent occurrence of events.

## COVERAGE

- Safety Objectives and Principles
- Fundamentals of Oil & Gas Industry
- Safety Management
- Understanding Hazards and Risk in Oil and Gas Industry
- SIL, LOPA, Reliability and Human Factor Analysis
- Risk Management
- Storage, Handling and Transportation of Petroleum Products
- Fire, Explosion and Toxicity Impact
- Electrical safety & Static Electricity Hazards
- Lab Safety
- Occupational Health and Environmental Management
- Sustainable Development

## WHO SHALL ATTEND

The programme will be useful for field personnel, the fresh engineering graduates, newly inducted executives, HSE professionals, managers, supervisors, and executives responsible for implementation of Safety and Health in the Oil & Gas Sector.

At the end of the programme, a written examination will be conducted and certificates will be issued to the successful candidates.

## VENUE

### NATIONAL SAFETY COUNCIL

Plot No.98A, Institutional Area, Sector 15, CBD Belapur, Navi Mumbai – 400 614

## FACULTY

Experts having deep understanding and experience in HSE in Oil & Gas industry.

## PROGRAMME DURATION

The total duration of the course is 9 weeks, which includes four nos of 1-day each classroom sessions and 40 online sessions.

## COURSE PEDAGOGY

- First 1-day physical classroom programme at Mumbai
- Second 1-day mid-review physical classroom programme (after four weeks) at Mumbai
- Third (final) 2-day physical classroom programme followed by written examination at Mumbai
- About 40 online sessions (90 minutes duration each)
- Periodic assignments and evaluation
