Dear NSC Members and Patrons,

Warm greetings from the National Safety Council!

We are pleased to announce the observance of **National Electrical Safety Week (NESW) – 2025** from **26<sup>th</sup> June to 2<sup>nd</sup> July 2025**.

Electricity is a powerful enabler of modern life and industry—but if not handled with care, it poses serious hazards. Electrical accidents remain a major cause of workplace injuries and fatalities, most of which are preventable through awareness, robust systems, and a strong safety culture.

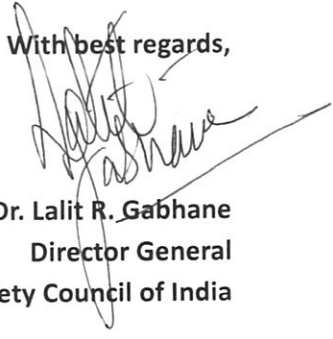

The theme for this year's campaign is **"Electrical Safety – Non-Negotiable"** emphasizing that electrical safety must never be compromised under any circumstance.

As part of the observance, we appeal to all NSC members, industries, institutions, and individuals to undertake proactive initiatives, including:

- **Auditing electrical installations** and identifying unsafe conditions or practices
- **Conducting awareness campaigns** for employees, contractors, and families on the safe use of electricity at work and home
- **Implementing and enforcing LOTOTO (Lockout, Tagout, and Test Out)** procedures and other preventive maintenance systems
- **Ensuring training and competency** of electrical engineers, electricians, and maintenance staff
- **Promoting the use of RCCBs**, proper earthing, insulation testing, and protective gear as per applicable standards
- **Reporting and analyzing** all electrical near-misses and incidents to prevent recurrence

Let us reaffirm our shared commitment to making every workplace and home electrically safe. Because electrical safety is not a choice—it is a non-negotiable responsibility.

With best regards,

  
Dr. Lalit R. Gabhane  
Director General  
National Safety Council of India
