DG, NSC as Distinguished Panelist at FSIE 2025

(11th Sept. 2025, Yashobhoomi, Delhi)

NSC was one of the support partners of Fire & Security India Expo (FSIE) 2025. NSC as a partner, DG NSC participated as a Distinguished Panelist for a strategic session on 'Design to Approval – Bridging the Gap Between Architects, Consultants & Fire Authorities' on 11th Sept. 2025 at Yashobhoomi, Dwarka, New Delhi.

Dr. Gabhane shared the national level insights on safety governance, regulatory alignment and the critical role of inter-agency collaboration in advancing fire-safe infrastructure across India.

Seen Dr. Lalit R. Gabhane (3rd from right), DG, NSC as one of the Panelists during Panel Discussion

NSC's Special Training Course on Competence Building in Safety, Health & Environment Management for Oil & Gas Industry

The National Safety Council conducted a **9-week program on Competence Building in Safety, Health and Environment Management for the Oil and Gas Sector** from **11 August to 29 October 2025**. The program was delivered in a **hybrid mode**, with **4 days of offline sessions** and the remaining sessions conducted **online for 90 minutes each**, facilitated by eminent faculty members from the NSC expert panel.

This initiative is one of **NSC's new and unique capacity-building programs**, designed to strengthen and build up safety competencies in the Oil and Gas sector.

A total of **23 executives** from different oil sector organizations and regulatory bodies participated, and raised the overall learning value of the program.

Seen on Dais: Dr. Gabhane (in suit), DG, NSC during final review of 9 weeks programme to his right R R Deoghare, Director, NSC; Ravindra Deshmukh (extreme right), Adviser (Tech) and K. V. Seshadri, Member, NSC Experts Panel

The course covered in-depth knowledge on Process Safety Management (PSM) with specific emphasis on CCPS guidelines, along with Oil & Gas Sector Safety Management practices. The program was supported by case studies, assignments, and an examination to ensure practical understanding and competency enhancement. Participants appreciated the structured content, practical relevance, and the experience-driven, knowledge-based approach of the program. The exam was conducted on the last day of the course i.e. on 29th November 2025. The certificates will be issued to the successful candidates.

Kappler & Lakeland join forces in India!

Frontline® 500
NFPA 1991 Certified
Chemical Flash Fire Protection Suit

Kappler and Lakeland join forces in India to expand high-level hazmat protection

Kappler and Lakeland, two leading protective clothing companies that compete in the U.S., have joined forces to expand chemical worker protection in India. The strategy will combine Kappler's advanced suit technology with Lakeland's position as an established PPE supplier in India. The companies specialize in different sectors of the protective apparel business. Lakeland focuses on coveralls and other apparel for non-life-threatening hazards, while Kappler is the long-time leader in total-encapsulating hazmat suits for fire brigades and other emergency response units.

The unique channel partner strategy will leverage Lakeland's position as an established supplier in India.

Kappler's NFPA-certified hazmat suits combined with other Lakeland products will support broader workforce protection for India. The expanded Lakeland offering will include innovative Kappler products such as Zytron®, Frontline® and DuraChem® gas-tight chemical suits.

TRAINING PROGRAMMES

NSCI Certified Internal Auditor Course for SHE Statutory Compliance

(6th - 8th October 2025, Visakhapatnam, A.P.)

The program aimed to enhance participants' understanding of statutory requirements and audit methodologies for effective SHE compliance in industries. The training was well-received by professionals representing various industrial sectors across the country.

1st row seated: Vikas V. More (3rd from right), Senior Assistant Director, NSC to his left Rajesh R. Deoghare, Director, NSC and Pratik C. Kathole, Technical Officer, NSC along with participants from diverse industries who actively engaged throughout the sessions

Lifting and Rigging Supervisor

(30–31st October, NSC Hqs., CBD Belapur, Navi Mumbai)

The two-day intensive programme was designed to enhance the competency of supervisors and safety professionals involved in lifting and material handling operations. The training emphasized both theoretical understanding and practical applications, covering critical aspects such as selection and inspection of lifting tackles, load estimation, sling angle effects, and rigging safety practices.

Participants also benefited from hands-on training sessions, which demonstrated safe lifting techniques, equipment handling, and preventive measures to avoid accidents during material handling activities. The interactive approach helped bridge the gap between field challenges and safety best practices.

The program received an enthusiastic response from participants across various industries, reflecting NSC's continued commitment to promoting a culture of safety and operational excellence in industrial workplaces

Role of Trade Unions & Associations in Cultivating HSE Practices

(13 - 15th October, Panjim, Goa)

The three-day program aimed to enhance the understanding of Health, Safety, and Environment (HSE) responsibilities among trade union representatives and industry associations. It emphasized the vital role of worker participation in building a strong safety culture within organizations.

The sessions covered topics such as leadership in safety, communication and consultation mechanisms, behavioural safety, accident prevention strategies, and compliance with statutory requirements. The program also featured interactive discussions, group activities, and experience-sharing sessions, fostering collaboration between management and workers for sustainable safety performance.

Participants appreciated NSC's initiative in creating a platform that strengthens the partnership between trade unions, associations, and employers in promoting a proactive approach toward workplace safety and health.

TELESCOPIC LADDER

This specification defines the design, testing, packing, supply, unloading, and performance requirements of FRP Telescopic Ladders with accessories for reliable and efficient use.

- ▶ Material :
Fiberglass-Reinforced Plastic (FRP)
- ▶ Working Load : 150 Kg.
Collapsible length : Around 6 Ft.

FRP EXTENSION LADDER

This specification covers the technical requirements of design, testing at manufacturer's works, packing & forwarding, supply and unloading at store/site and performance of FRP Extendable Ladders with all accessories for trouble free & efficient performance.

Material :	Fiberglass-Reinforced Plastic (FRP)
Di- electric Strength :	As per IEC 60060-1
Length of Ladder :	Available in 6 ft to 40 ft (opening length)
Working Load :	150 Kg.
Type Test :	Tested for 110 kV as per IEC 60060.

Our product range is designed to provide maximum protection, durability, and comfort for workers in high-risk environments.
