## SAFETY SHIELD

**NATIONAL SAFETY COUNCIL  
OF INDIA**

## INTRODUCTION

- NSCI Safety Rating Scheme (NSRS) is introduced to carry out qualitative, quantitative and objective assessment of organisation's Occupational Health, Safety, Environment Management System as per the Industry specific standards taking into account National / International best practices. Based on this assessment score, appropriate nos. of **Golden Stars** are awarded to those organisations who opted for NSRS.
- NSCI has now developed this advanced assessment tool i.e. **Safety Shield** to recognise and reward for demonstrating excellence in Occupational Safety, Health and Environment Management System and going beyond **Five Golden Stars** compliance.

## OBJECTIVE

- To recognize extraordinary efforts of the organisation in achieving excellence in Occupational Health and Safety.

## SUITABILITY

NSCI Safety Shield is suitable for all types of factories and plants, construction sites, ports, airports, hospitals, hotels, malls, IT parks, Mines, Rails, Metro Rails and commercial Establishments.

## FEATURES

- Assessment of OHS Leadership & Use of advanced Technology innovations in OHSMS.
- Comprehensive qualitative, quantitative and objective assessment
- Benchmark against current best practices and techniques
- Comparison among SBU's/ Sites of the same organisation
- Endorse the success with the NSCI Safety Shield, certificate, and NSC publication coverage

## BENEFITS

- Boost your organization's reputation
- Setting you apart from the peers
- Amplified visibility of organization's efforts in Occupational Health and Safety
- Boost stakeholders confidence and gives a competitive advantage.
- Leap towards better standard in Occupational Health and Safety
