

## FOUR WEEK (5 days per week)

### SUPERVISORY TRAINING PROGRAMME FOR COMPETENT SUPERVISION UNDER SECTION 41-C(b) OF THE FACTORIES ACT, 1948

To build competency of the supervisory personnel working in the hazardous process industries, as per Section 41-C(b) of the Factories Act, 1948, the National Safety Council has decided to conduct a four week *Specialized Certificate Course for Supervisors working in Hazardous Process Industries*. The National Safety Council has received the approval of Directorate General, Factory Advice Service and Labour Institutes (DGFASLI), Ministry of Labour & Employment, Government of India, for this purpose. The Qualification & Experience required for the course is as below:

- i) Degree in Chemistry or Diploma in any branch of Engineering or Technology with 5 years experience in process operation and maintenance in industry involving hazardous substances, or
- ii) Masters Degree in Chemistry or a Degree in any branch of Engineering or Technology with 2 years experience in process operation and maintenance in industry involving hazardous substances

The course will be conducted as:

A) **National Level Programme** where organizations can nominate participants.

Dates, course fees, venue, etc. about the programme will be announced in due course.

B) **In-plant Programme**, upon request from the industries. The offer for conducting such programme at company premises will be sent on request.

**Certificates to successful candidates will be issued by the DGFASLI.**
