

NSCI Elearning Course on “Chemical Safety”

Objective of the Course:

Chemicals are an important part of our life. They are everywhere around us, in the food we eat, the water we drink, the consumer products we use, even the air we breathe. These chemicals are both manmade and natural.

The main objective of the course is to :

1. Know the statutory provisions related to SHE.
2. Identify the various hazards in Process Industries.
3. Know various methods of Risk Management
4. Get familiarized with various Industrial Hygiene Techniques.
5. Understand Chemical Emergency Procedures

This E-learning course enables the persons to know the hazards and control measures working in hazardous industries.

Who can Enroll? : Managers, Engineers, Supervisors, etc.
