## ABOUT THE COURSE

In today's world road and transport has become an integral part of every human being. Everybody is a road user in one shape or the other. The present transport system has minimized the distances but it has on the other hand increased the life risk. Every year road crashes result in loss of lakhs of lives and serious injuries to crores of people.

With the advancement of technology, the most developed projects undertaken along with the real estate are construction of highways and expressways. While new roads are being built, faster automobiles are being invented and produced in high numbers making road safety a crucial question. In India every year near about 1.5 lakhs people dies in road accident and near about 4.5 Lakhs gets injured. In most of the cases crashes occurs either due to carelessness or due to lack of road safety awareness of the road user. Hence, road safety education is as essential as any other basic skills of survival.

Motor Vehicle Amendment Act 2019 has been implemented nationwide from September 1, 2019. The act aims to improve the road safety in the country. The Act provides in detail the requirement regarding licensing of drivers/conductors, registration of motor vehicles, control of motor vehicles through permits, special provisions relating to state transport undertakings, traffic regulation, insurance, liability, offences and penalties, etc. Strict enforcement of these traffic laws and compliance under the provisions under these rules and regulations and acts can reduce the road accidents. However there is need for mass awareness and effective training of relevant players on Road Safety. National Safety Council has scheduled this program to create awareness on the new act provisions and improve road safety among participants and to develop training skills among them to become future trainer for Defensive Driving.
